[01] RED TOP

Optima deep cycle batteries are up to the voltage challenge presented by today's tuned sport compact car. In car entertainment, high power ignition systems and other power-draining modifications are no match for Optima batteries. Contact Optima at (888) 867-8462.

[02] HIGH-FLOW EVO VIII CAT

Everybody knows exhaust restriction is one of the biggest power-robbing culprits when it comes to performance engines, especially turbocharged ones. EVO owners can nab the bad guy with the Helix Mitsubishi Lancer Evolution VIII High Performance Catalytic Converter, which expedites the flow of spent gasses, reduces pumping losses and increases power output. Contact Helix at (510) 623-9907.

[03] FEEL THE REDLINE

Red Line High Performance Motor Oil has a complete lineup of synthetic motor oils design to maximize the performance and protection of your faithful engine. Available in a wide range of viscosities to meet your engine's needs and your driving style. Contact Red Line Synthetic Oil Corporation at (707) 745-6100.

[04] PISTONPOWER

Pick up a Mahle PowerPak at Options Auto Salon. The PowerPak comes with forged, hard-deburred performance-coated pistons, steel pins, wire locks and low-drag rings. Each piston skirt also gets a Grafal anti-friction coating. Contact Options Auto Salon at (800) 678-2886 or optionsauto.com.
